

Frontend Developer (m/w)

You want to develop modern web applications and mobile apps?
You love Angular, TypeScript and want to work in a startup environment?

entrecode GmbH

We are a startup based in Stuttgart, Germany and develop software as a service products with Angular, Ionic and Node.js. Our products cover B2B apps, IoT/iBeacon apps, e-commerce websites, and gym apps.

The Job

- ▶ Frontend development of web apps
- ▶ Development of hybrid mobile apps
- ▶ Planning of software components with our UX team

The Benefits

- ▶ startup culture: flat hierarchies, open discussions, flexible working hours, freedom
- ▶ work in loft office in Stuttgart-Süd or home office
- ▶ modern workflow (git, continuous integration, Slack, Jira, Docker, AWS)
- ▶ own responsibility for your projects & work gear (which is provided)

You

- ▶ have experience in web development
- ▶ have a deep understanding of JavaScript (ES6) and experience with Angular
- ▶ have some understanding of TypeScript, Node.js, Git, HTML
- ▶ like to build maintainable, scalable and well-documented software
- ▶ enjoy teamwork and like to work in a startup atmosphere
- ▶ like good food (we cook every day for lunch)

Apply now!

Just send your application including salary expectation to info@entrecode.de.
Please include links to stuff you did - Github profile, websites, apps or similar.
